

Tools You'll Need

 Tape measure  Graph paper  Pencil and eraser  Straight edge

Step 1: Create a Rough Sketch

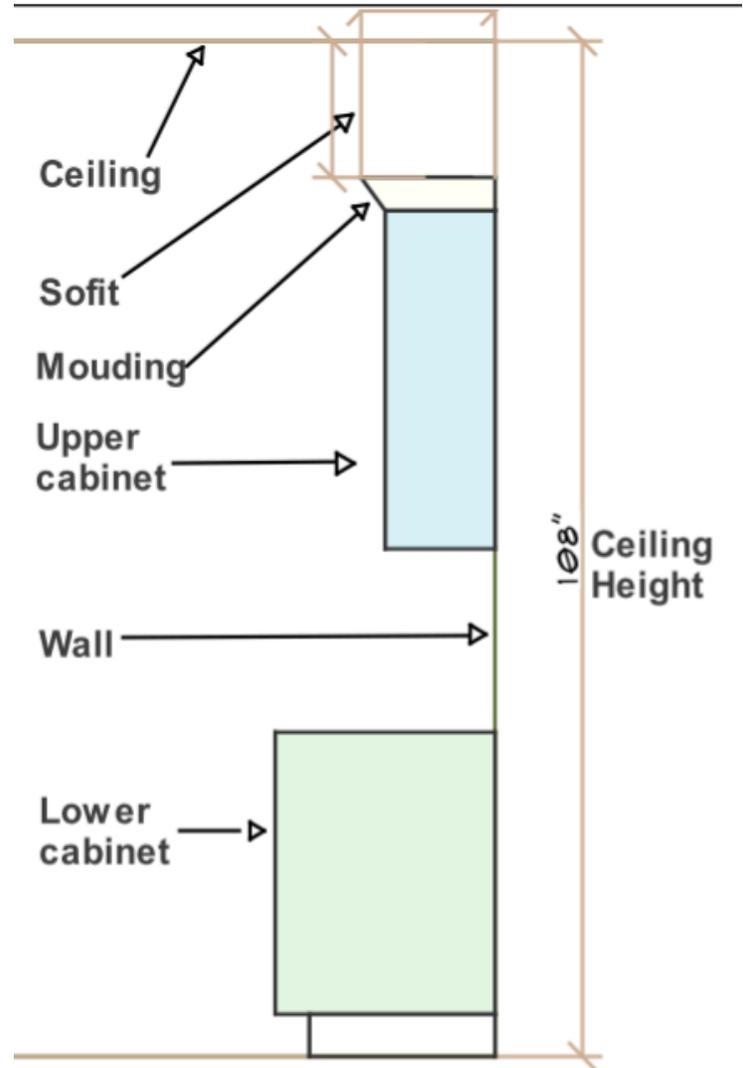

1. Draw the basic shape of your kitchen — include walls, doors, windows, and any fixed features (vents, radiators, etc.).
2. Label each wall (e.g., **Wall A**, **Wall B**) for clarity.
3. Mark where appliances, plumbing, and electrical outlets currently are.
4. Measure and record the positions of:
5. Gas lines
6. Vents or ducts
7. Measure from the **nearest corner** to the **centerline** of each outlet or pipe.
8. Measure the full **length of each wall** from corner to corner.
9. Note any **protrusions or recesses** (pipes, support columns, soffits).

Step 2: Ceiling height

1. Record the height of the room from **floor to ceiling** at multiple points and go with the shortest height for average height.
2. Use a level to check if floors, walls, and ceilings are straight.
3. Measure diagonally from corner to corner — if both diagonals are equal, the walls are square.

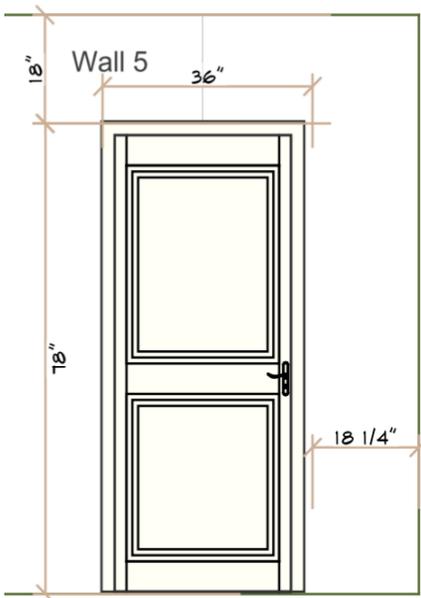

Ceiling Height measurement:

Step 4: Measure Openings (Doors & Windows)

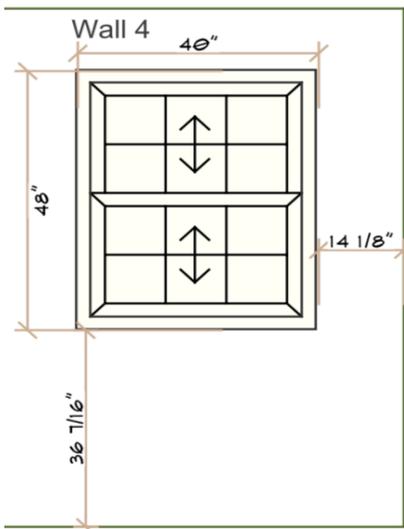

For each window or door:

1. Measure the **width and height** of the opening.
2. Measure the **distance from the corner of the wall** to the edge of the trim (not the door frame).
3. Measure the **distance from the floor to the bottom of the window** and **from the top of the window to the ceiling**.
4. Mark the **direction the door swings** (in/out, left/right).

Door/Opening Measurements

Door	Height	Width
1

2		
3		
4		

Step 5: Appliances

If you are not getting new appliances you will need to measure width, depth and height. If you are getting new appliances it is important to pick out your appliances **BEFORE** your cabinets because we will need to fit your cabinets **AROUND** your new appliances.

Range Brand/Model	Width	Depth	Height
-----------------------------	-------	-------	--------

Microwave Brand/Model	Width	Depth	Height
---------------------------------	-------	-------	--------

Refrigerator Brand/Model	Width	Depth	Height
------------------------------------	-------	-------	--------

Dishwasher Brand/Model	Width	Depth	Height
----------------------------------	-------	-------	--------

Cook-Top Brand/Model	Width	Depth	Height
--------------------------------	-------	-------	--------

Oven Brand/Model	Width	Depth	Height
----------------------------	-------	-------	--------

Other Brand/Model	Width	Depth	Height
-----------------------------	-------	-------	--------

Step 6 Photos:

Please take photos of your kitchen and or bathroom walls. Each wall that new cabinets will be installed and a picture of the kitchen as a whole.
